

## BHS Crushing Technology

# Questionnaire for Crushing Technology Tasks

For the evaluation of your crushing/milling task we need a number of details. These serve as a basis for the selection of crusher type, configuration and size. We therefore kindly ask you to answer the following questions as completely as possible.

### 1. Your Contact Data

Company:

Contact Person:  Mr.  Ms.

Department:

Street:

No:

Zip code / Town:

Country:

Phone:

Mobile:

Email:

Website:

Which is your industry and application?

### 2. Crushing Task

Production of:

Aggregats

Sand

Fertilizer

other:

Aim of the project:

New process / manufacturing principle

Replacement of an existing technology

R&D project

Increase of capacity

Correction of shape

Selective crushing

other:

Process in operation at this moment?

What shall be improved?

### 3. Material data

Type of material:

Pre-crushed:  Yes  No

If Yes, with what technology:

Shape of material:

Los Angeles value:

Mohs hardness:

Bond work index:

kWh/t

Moisture:

%

Breakability index LBK:

%

Temperature:

°C

Abrasiveness index LAK:

g/t

other:

BHS Crushing Technology  
**Questionnaire for Crushing Technology Tasks**

**4. Application data**

---

Feed size:	mm	Target fraction:	mm
Amount of target fraction:	t/h		
Target within target fraction: (for example max. 10 % of filler < 63 µm in the 0-2 mm)			
Ambient temperature:	°C		
other:			

---

**5. Comments**

---

Please send the filled questionnaire to your contact person at BHS-Sonthofen GmbH  
or to the email address [crushing@bhs-sonthofen.com](mailto:crushing@bhs-sonthofen.com)
